FOUNDRY TRADE JOURNAL INDEX
VOLUME 156
JANUARY-JUNE 1984

A

Abrarives, Special Hard, aid Foundry Profitability, 324
AE Turbine Components expand the Frontiers of Casting Technology, 486
Alumina Fibres, Light-alloy Castings incorporate, 62
APV Foundry, Inductotherm's 500th VIP leaves Droitwich for, 3
Armalloy Limited—a Steelfoundry Resurgent, 79
Automatic Pouring Furnace, Scottish Foundry installs, 283
Automotive Applications of Spheroidal-graphite Irons, 544

B

BCIRA looks at New Foundry Developments, 368
BCIRA to mount Major Three-day conference
Blasting Machines, Sand Damage in, 313
BNF opens up New Perspectives in Continuous Casting, 63
Bolton Students' "Passing-out Parade", 442
British Engines Limited, Mould and Coremaking at, 158
Burleighfield Arts copies Icelandic Relief, 58
Burleighfield Arts completes Icelandic Relief, 517

C

Castings that propel the World's Ships—a Profile of Stone Manganese Marine, Limited, 401
Cast-Tec Process, Gravity Diecasting of Iron, The Russell, 77
Cast-iron Auto Engines, Days Numbered for, says Car Boss, 309
Cast-iron Treasures from Korea, 261
Centaur celebraies 10th Anniversary with Open Day, 185
Centrifugal Casting, Some Recent Advances in, 61
Ceramic Cores for the Production of Precision-cast Impellers, Moulded, 178
Charles W. Taylor commission New Furnace at South Shields Open Day, 513
Coke Crisis hits Foundries, 263
Cold-box, CO_2 and SO_2 Processes, Instant Set—a Technical Guide to, 149
Cold-set, Loughborough Seminar looks at, 164
Continuous Castings, BNF opens up New Perspectives in, 63
Copper Alloys, the development of Production Methods for, Marine Castings, 409
Coremaking Machines—Versatility is the Key, 477
Correspondence: An Industry in Crisis, 174
Crane Foundry: Buy-out Foundry wins Orders, 59
Cupola, Some New Refractory Repair Practices on a Hot-blast Liningless, 7
Cylinder-block, Development of, 527

D

Diecasting Courses—are they wanted, 39
Diecasting Fellowship presented at Annual Dinner, 355
Diecasting or Iron—The Russell Cast-Tec Process, Gravity, 77
Diecasting Society looks to the Future, 37

E

Education and Training in the Foundry Industry—a Guide to Courses for 1984/1985, 402
Eighteenth-century Blast-furnace restored, 517
European Castings Show attracts a Professional Audience, 57

F

Feeding Aids—a Survey of Methods and Practice, 17
Fluidised-bed Treatment Furnaces for Component Cleaning and Metal Recycling, 322
FN Formetal, Low-Pressure Sand Casting from, 65
Foundry Noise: a Planned Approach to reducing the Noise Hazard, 213
Fred Easter, Patternmaking Industry says thanks to, 558
Furnace heat-recovery cuts Space-heating Costs, 284

G

Galvanizing Castings, 321
GIFA 84—a Preview (Part One), 425
GIFA 84—a Preview (Part Two), 459
Graphite Mould Casting Process, The Rant, 76
Gravity Diecasting, Seminar discusses Developments in, 37
Gravity Diecasting of Iron—The Russell Cast-Tec Process, 77

H

Hansberg Automatic Moulding Plants find International Application, 380
Heat Treatment, Safety in, 210
High-pressure Water-jetting Equipment as a Production Tool, 325
Holland: "de Cruquius"—a Cornish Engine that drained the Polder dry, 243
Hot-blast Liningless Cupola, Some New Refractory Repair Practices on a, 7
The Horizontal Hot-chamber Pressure-diecasting Machine explained, 339
Hot-Chamber Pressure Diecasting Machine explained, 339

I

IAC reduces Industries Clangour, 232
Inductotherm's 500th VIP leaves Droitwich for APV Foundry, 3
IBF News: 5; 59; 210
IMI Bailey Birkett to offer Non-ferrous Castings on the Open Market
Instant Set—a Technical Guide to Cold-box, CO_2 and SO_2 Processes, 149
Investment in Foundries: Report says Foundry Community "will survive", 43

K

Korea, Cast-iron Treasures from, 261

L

Light-alloy Castings incorporate Alumina Fibres, 62
Low-pressure Sand-casting from FN Formetal, 65
Loughborough Seminar looks at Cold-set, 164

M

Machining Ni-Hard—a Problem Solved?, 376
Marine Castings—the Development of Production Methods for Copper Alloys, 409
Metabrasive plays host to Foundry Executives, 293
Metals Technology, A New Approach to, 4
Mould and Coremaking at British Engines Limited, 158
Mould and Core Coatings, 25
Moulded Ceramic Cores for the Production of Precision-cast Impellors, 178
Moulding Machine, selecting a,—the Foundryman's Dilemma, 357
Moulding Plants find International Application, Hansberg Automatic, 380

N

Ni-Hard, Machining, a Problem solved? 376
Noise Control Case Studies, 226
Noise Hazard, Foundry Noise: a Planned Approach to reducing the, 213
Noise Protection, Firm fined for Lack of, 245

O

On-demand Trough Mixing, Thirty Years of, 274

P

Patternmaking Industry says Thanks to Fred Easter, 558
Patternmaking Trainee wins National Competition, 514
Precision-cast Impellors, Moulded Ceramic Cores for the Production of, 178
Pressure-diecasting Machine explained, The Horizontal Hot-chamber, 339
Pressure Diecast Semi-solid Graphitic Hypereutectic Aluminium silicon Alloys, 333

R

Rant Graphite Mould Casting Process, The, 76
Rautomead opens Foundry in Dundee Plant, 262
Refractory Repair Practices on a Hot-blast Liningless Cupola, 7
Replicast CS (Ceramic Shell) Process, The, 326
Replicast Process, The, 71
Richards Foundries enter Anodes Market, 59
Robot Population continues Expansion, 209

S

Sand Casting from FN Formetal, Low-pressure, 65
Sand Damage in Blasting Machines, 313
Sand Reclamation, Some Recent Developments in, 265
Scrap Consumption declines still Further, Foundry, 176
SCRATA displays its Development Activities, 310
Some Recent Developments in Sand Reclamation, 265
SO_2 Processes, Instant Set—a Technical Guide to Cold-box, CO_2 and, 149
Special Hard Abrasives aid Foundry Profitability, 324
Spheroidal-graphite irons, Automotive Applications of, 544
Squeeze Form combines Casting with Forging, 66
SCRATA displays its Development Activities, 310
Steam Engine: "de Cruquis"—a Cornish Engine that drained the Polder Dry, 243
Stone Manganese Marine Limited, a Profile of, 401

T

Taylormade Induction demonstrate Manufacturing Capability, 518
Thermprocess 84—West Germany's Thermal Technology Exhibition, 438
Thirty Years of On-demand Trough Mixing, 274
Tin Research Institute, New Premises for International, 309
Training in the Cast-metals Industry in 1984, 417

W

Water-jetting Equipment as a Production Tool, High-pressure, 325
Water-jetting improves Productivity and the Environment in the Foundry, 497
Worthington-Simpson—a Foundry with a Future, 242

Z

Zinc Diecastings, Outstanding Applications of, 41

Index of Authors

Ashton, M. C., 326
Bewick, T., 265
Brookes, A. J., 326
Brown, J. R., 71
Bushell, G.. C., 265
Champion, A., 213
Cheukh-Meri, H., 333
Clegg, A. J., 333
Custard, G., 213
Das, A. A., 333
Donaldson, E. G., 544
Ford, E., 284
George, D. B., 25
Gibson, D. S., 61
Greenwood, R. E., 178
James, K. T., 357
Lenze, F. J., 7
McCombe, C., 79
Marshall, E. J. 417
Morgan, A. D., 149
Neu, M. G., 17
Plaster, H. J., 313
Riccio, G., 527
Sharman, S. G., 326
Sims, B., 213
Stevenson, M., 158
Southgate, R. J., 401
Stoneman, A. M., 321
Townsend, D. W., 409
Turburfield, J., 39
Williams, G., 66
Willcox, G., 76
